- Parking Management

### **CONGESTION PRICING**

- ☐ Metro's Traffic Reduction Study (TRS) has focused on three interconnected goals:
  - Ease & improve traffic through affordable pricing
  - Reinvest net revenues in safe, rapid & reliable transportation options
  - Aid low-income households to address financial burdens & improve access to opportunities
- □ Net Revenue Estimates (Phase 3) 20 Years (2028-2047)\*

# **REAL ESTATE & JOINT DEVELOPMENT**

#### **Real Estate**

- Majority of Metro Real Estate is utilized by transit operations and maintenance
- Annual lease revenue is approximately \$3 million non-transit properties
- Balance of properties are small, irregular shaped, no utility connections - TCN

- Portfolio of properties include 26 active and future/committed development sites
- Properties include park-and-ride facilities and other transit infrastructure
- Utilizing all 26 sites, it is estimated that 12,800 housing units (~6,400 income-restricted) could be developed while also generating between \$175 million and \$200 million in ground lease revenue for Metro, over 5 to 10 years

NOTE: Projections are based on Feb 2024 estimates. Revised projections are being developed.

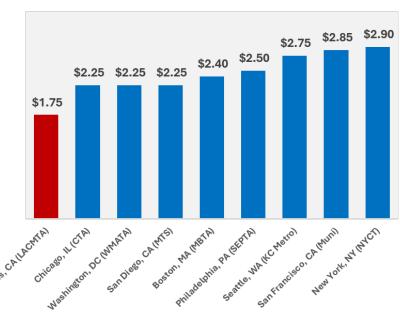

### **FARES**

#### **Fare Structure**

- LACMTA fares of \$1.75 for full-fare riders are the <u>lowest</u> among its peer agencies
- Raising base fare (\$2.00 \$2.50) Metro could generate ~\$20-\$74 million annually
- Current programs, such as LIFE, GoPass, U-Pass, etc., will continue to offer free and discounted fares for riders.

## **EXPRESS LANES**

Excess revenues are allocated through Rounds:

| Rounds<br>(\$ in millions) | Year         | NTRG<br>Awarded |      | Expended |      | Unspent |      |
|----------------------------|--------------|-----------------|------|----------|------|---------|------|
| Round 1                    | July 2014    | \$              | 19.3 | \$       | 16.2 | \$      | 3.1  |
| Round 2                    | August 2016  | \$              | 27.9 | \$       | 20.6 | \$      | 7.3  |
| Round 3                    | October 2023 | \$              | 65.0 | \$       | 12.0 | \$      | 53.0 |
| Round 4 (1)                | TBD          | \$              | 85.4 | \$       | -    | \$      | 85.4 |

<sup>(1)</sup> Half of the \$85.4M surplus is available for transit subsidies operating on the corridors

- Revenue has increased since 2023 creating a <u>surplus</u> of \$85.4 million available for future funding round (Round 4)
- Opportunity: The Board could forgo a future round of Net Toll Revenue Grants (Round 4) and instead direct the surplus revenues of approximately \$43.2 million to Metro operations within the I-10 and I-110 corridors

### **PARKING MANAGEMENT**

### Parking Facilities

- Park-and-Ride facilities have dropped in occupancy to 30-40% post-pandemic and generate net revenues of \$1.2M annually
- Union Station/Gateway parking facilities currently generate \$500K annually
- A proposed rate increase to our current daily rate of \$8 to \$10 at Union Station/Gateway could generate an additional \$400K in net revenues annually

### □ Parking Management for Mega Events

- World Cup Games
  - Estimated net revenues of \$1.3M for 8 games

### **NEXT STEPS**

- Metro will continue to work toward meeting the deliverables of the Strategic Work Plan
- ☐ Each month, a deep dive will be provided to inform the Board of Key Focus Areas
  - November Capital Projects
  - January Near-Term Update
- ☐ Continue efforts to mitigate financial challenges while maintaining Guiding Principles
  - Preserve Essential Services
  - Prioritize Quality Service
