

Metro – D Line Subway Extension Project

Sections 1, 2, and 3

Title VI Service and Fare Equity Analysis

D LINE SUBWAY EXTENSION PROJECT

Prepared by Los Angeles Metro Operations Department, June 2025

Agency Recipient ID 5566

Agency Contact: Joanna Lemus, Senior Manager, Civil Rights Programs (Title VI),

Office of Civil Rights & Inclusion

(Phone 213.922.4067; lemusj@metro.net)

Introduction

Section 601 of Title VI of the Civil Rights Act of 1964 states “No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.”

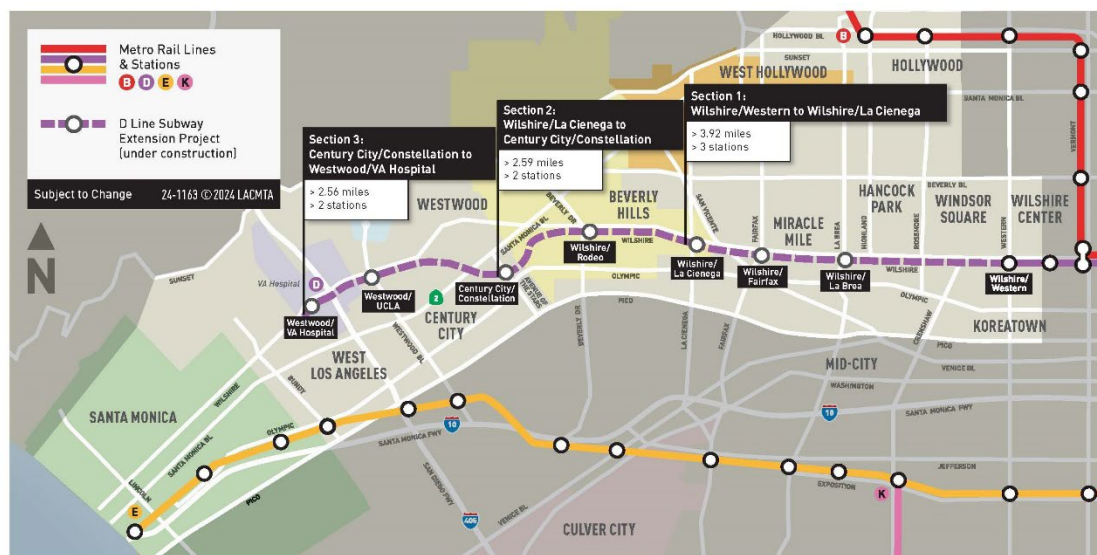

As a recipient of federal funding, LA Metro is required to ensure its programs and activities align with the principles of Title VI. The D Line Subway Extension Project is a western extension of the D Line from the Wilshire/Western Station to Westwood and is set to begin revenue service later in 2025. In accordance with Federal Transit Administration Title VI guidelines and Metro’s Title VI Plan a Service and Fare Equity (SAFE) Analysis is required to assess the impact of this new service on minority populations.

Background

The D Line Subway Extension Project will continue from the current D Line terminus at the Wilshire/Western Station, extending westward for nearly nine miles along Wilshire Bl, and will add seven new stations. The extension is being constructed and will open service in three sections. Existing D Line heavy rail (subway) service would continue to operate between Union Station and Wilshire/Western Station, then continue west to serve:

- New Section 1 Stations: Wilshire/La Brea, Wilshire/Fairfax, and Wilshire/La Cienega Stations later in 2025;
- New Section 2 Stations: Wilshire/Rodeo (construction name) and Century City Stations, projected opening Summer 2026;
- New Section 3 Stations: Westwood/UCLA and Westwood/VA Hospital, projected opening Summer 2027.

Figure 1 – D Line Subway Extension

Analysis - Metro's Title VI Policies

Major Service Change Policy

Metro's Major Service Change Policy requires this Title VI Analysis be completed six months before the opening of the new fixed guideway project (e.g., D Line Subway Extension). This requirement applies irrespective of whether the service changes meet the thresholds outlined in other subsections of the policy.

- Disparate Impact refers to a facially neutral policy or practice that disproportionately affects members of a group identified by race, color, or national origin and the policy lacks a substantial legitimate justification, including one or more alternatives that would serve the same legitimate objectives but with less disproportionate effects based on race, color or national origin. This policy defines the threshold Metro will utilize when analyzing the impacts on minority populations and/or riders. For major service changes, a disparate impact will be deemed to have occurred **if the absolute difference between the percentage of minorities adversely affected and the overall percentage of minority riders is at least 5%.**
- Disproportionate Burden refers to a neutral policy or practice that disproportionately affects low-income riders more than non-low-income populations and/or riders. Metro defines low-income as \$69,350 for a four-member household which represents the median income of a four-member household in Los Angeles County. The finding of a disproportionate burden for major service changes requires Metro to evaluate alternatives and mitigate burdens where practicable. For major service changes, a disproportionate burden will be deemed to exist **if an absolute difference between the percentage of low-income people adversely affected by the service change and the overall percentage of low-income people is at least 5%**

The definitions of disparate impact and disproportionate burden were adopted in Metro's Title VI Program which was updated and approved by Metro's Board in October 2022. The threshold referenced is taken from the California Department of Housing and Community Developments 2024 State income Housing Limits; this amount is being referenced as the updated threshold and will be included in the 2025 Title VI update that will be brought to the Metro Board for adoption later this year.

Disparate Impact Analysis Methodology

To assess whether the change will have a disparate impact on minority riders, the ethnicity demographic data of the community this new rail alignment will serve is analyzed. The data is then compared to the ethnicity demographic data of Metro's Service Area. If the absolute difference between the minority percentage along the alternatives and the Metro Service Area percentage is at least 5%, an impact is deemed to have occurred.

Service and Fare Impacts

Revenue service hours will be added to the existing transit service with the opening of each section as follows:

- New Section 1 Stations: Wilshire/La Brea, Wilshire/Fairfax, and Wilshire/La Cienega projected opening in mid to late 2025. Approximately 113,000 annual rail revenue hours will be added to the existing transit service on the corridor.
- New Section 2 Stations: Wilshire/Rodeo (construction name) and Century City Stations, projected opening end of 2026. Approximately 28,810 annual revenue hours will be added to the existing transit service on the corridor.
- New Section 3 Stations: Westwood/UCLA and Westwood/VA Hospital, projected opening Summer 2027. Approximately 36,640 annual revenue hours will be added to the existing transit service on the corridor.

As outlined above, the segment from the current terminus Wilshire/Western Station and the terminus station with the opening of each section will have the same levels of service as the rest of the D Line: 5-minute peak service weekdays, 10-minute off peak weekday and daytime weekend service, and 20-minute evening/late night service.

Potential Metro Bus service changes include:

- Line 720 will be gradually modified to become a peak period only service weekdays as outlined in NextGen Bus Plan. This is based on expected movement of passengers from this service to the D Line as it extends. Line 20 service will be increased to ensure a good quality local bus service between the D Line stations between Downtown LA, Westwood, and to Santa Monica.
- There is also an approved change for a new Line 610 between Wilshire/La Brea D Line and Hollywood/Vine B Line Stations, replacing the north end of Line 210. Line 210 northern terminus would become Wilshire/La Brea D Line Station instead of Wilshire/Western D Line and Hollywood/Vine B Line Stations. Evolving ridership patterns will be monitored as each phase of the D Line extensions opens, and changes planned for the above bus services may be modified.

These changes aim to enhance connectivity, expand transit options, and improve the overall passenger experience for residents throughout the Greater West Los Angeles region.

The fares for the new D Line Extension will be the same as for other Metro rail and bus services and are integrated with the fares for these other services.

Minority and Low-Income Populations Served by New D Line Subway Extension Sections 1, 2, and 3

As required under Title VI, Metro has analyzed the minority and low-income populations that will be served by the new D Line Subway Extension rail service based on being within 0.5 miles of the alignment. As Lines 20 and 720 are also being impacted, data for their catchment area is also included. Their catchment area is defined as 0.25 miles of corresponding bus service.¹ The

¹ A buffer of 0.25 miles is used since the average rider tends to walk only 0.25 miles for bus service as opposed to 0.5 for rail service.

relevant data is shown in Table 1 below. There is no demographic ridership data to analyze for rail service along this alignment as the line is not yet in operation.

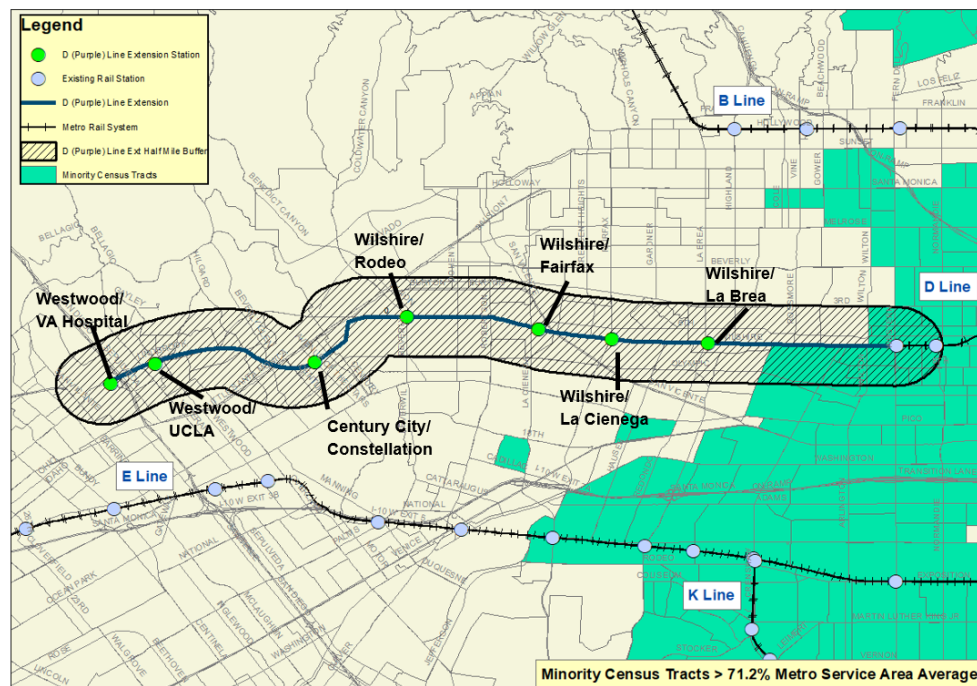

Table 1

Comparison	Population	Minority Population	Minority Percentage
D Line Extension	252,075	116,799	46.3%
Line 720 Deletion	-353,403	-202,304	57.2%
Line 20 Service Increase	351,868	201,699	57.3%
D Line Extension Impact Corridor	250,540	116,594	46.4%
Metro Service Area	7,580,839	5,397,073	71.2%
Difference Comparison			-24.8%

Note: Data source is the 2023 American Community Survey.

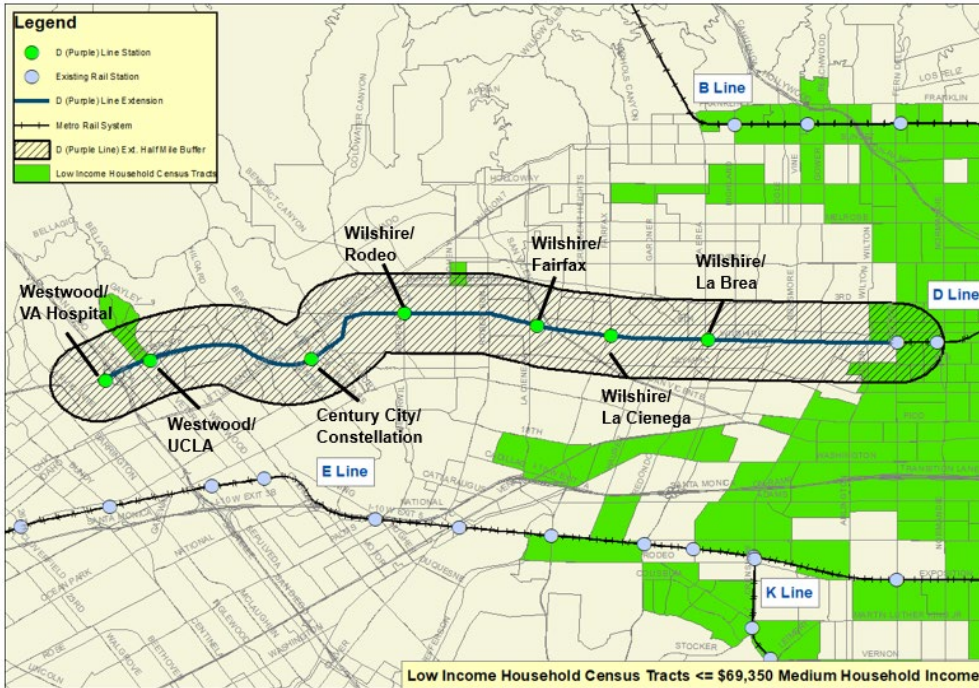

The minority population that will be served by the D Line Subway Extension Subway Project Impact Corridor (see Figure 2, 0.5-mile catchment) comprises 84.4% of the overall population; the new line will serve a minority population 24.8% lower than the 71.2% average for Metro's overall service area. This constitutes a disparate impact to the minority population under Title VI. However, since the project is a benefit to both the corridor and the minority population the new line will serve, the adding of new rail service and discontinuing Line 720 will be offset by increasing service on Line 20. Thus, the disparate impact is positive for the minority population under Title VI and does not require any review of alternative options for mitigation.

Figure 2 – D Line Subway Extension – Minority Population

The low-income households that will be served by the D Line Subway Extension Project Impact Corridor (see Figure 3, 0.5-mile catchment with 0.25 catchment for Lines 20 and 720) comprise 46.4% of the households.

Figure 3 – D Line Subway Extension – Low-Income Population

This is 1.2% higher than the Metro Service Area average of 45.2% for low-income households. Since this is within the 5% threshold, there is no disproportionate burden on low-income households. Consequently, this would normally represent a disproportionate burden for the low-income households the new line will serve. However, since the project is a benefit to both the corridor and the low-income households the line will serve by adding a new rail service and not reducing associated Metro bus services, the disproportionate burden is positive for the low-income population under Title VI and does not require any review of alternative options for mitigation. Reference Table 2 for analysis.

Table 2

	Number of Households	Number of Low-Income Households	Low-Income Household Percentage
D Line Extension	112,666	47,193	41.9%
Line 720 deletion	-172,562	-86,021	49.8%
Line 20 service increase	171,551	85,793	50.0%
D Line Extension Impact Corridor	111,665	85,783	42.1%
Metro Service Area	2,663,368	1,205,146	45.2%
Difference Comparison			-3.1%

Note: Data source is the 2023 American Community Survey.

Outreach

The D Line Subway Extension project was approved by the Metro Board of Directors on April 26, 2012. The service plan was approved by the FTA on March 28, 2023. Throughout the project approval, environmental review process, planning, and construction of the D Line Subway Extension project, Metro's Community Relations Department conducted an extensive outreach and communications program. This included key stakeholder group briefings and presentations, distribution of construction notices, e-notifications, and press releases. Fact sheets containing the project's hotline number, website, and email address was widely distributed and posted on the project website.

Project staff also provided periodic in person and virtual updates via community meetings and through Metro's Westside Central Service Council on the various aspects of the project, including construction impacts, station naming, and overall construction progress. Metro Service Councils are advisory bodies composed of transit advocates, municipal operator representatives, and riders. Council meetings are held at locations within their respective service regions, and serve as one of Metro's many venues for community engagement. A summary of community meetings is provided in Attachment A.

As project construction is completed and each segment approved for Metro to begin pre-revenue service testing, outreach will focus on informing the community of the start date for this new service as opening dates are scheduled for each section.

Conclusion

The D Line Subway Extension Sections 1, 2, and 3 will extend the D Line rail service from its current terminus at Wilshire/Western nearly nine miles west to Westwood, enhancing transit accessibility for minority populations and low-income households along the new rail corridor. This extension has been evaluated under Title VI and determined to not impose disparate impacts or disproportionate burdens, thus eliminating the need for mitigation. The D Line rail extension will deliver high-quality mobility options to the community, aligning with the overarching objective of improving public transit services by expanding rail coverage throughout the Los Angeles region. Minority and low-income riders will significantly benefit from this subway extension.

Metro followed the requirements of FTA Circular 4702.1B and met the legal test for disparate impact as follows:

- (1) *Metro has a substantial legitimate justification for the proposed service change as it works to expand access to high-quality rail service and facilities across the Metro service area;*
- (2) *Metro has no alternatives that would have a less disparate impact on minority riders but would still accomplish the transit provider's legitimate program goals with the opening of D Line Subway Extension Sections 1, 2, and 3.*

Staff therefore requests that the Metro Board adopt this analysis in support of the impending extension of the D Line service.

Metro – D Line Subway Extension Project Sections 1, 2, and 3
