

Metro Major Service Change Policy

FTA Circular 4702.1B, revised in 2012, requires transportation agencies to develop policies to assist in the evaluation of impacts to minority and low-income riders when considering service and fare changes.

Figure 1: Overview of Metro's Title VI Equity Analysis process

All changes in service meeting the definition of “Major Service Change” are subject to a Title VI Service Equity Analysis prior to Board approval of the service change. A Title VI Equity Analysis will be completed for all Major Service Changes and will be presented to the Board for its consideration and the results will be included in the subsequent Metro Title VI Program Update with a record of action taken by the Board. Service changes considered “Minor” due to not meeting the thresholds of a Major Service Change are also analyzed and alternatives considered are documented, however, a Service Equity Analysis is not performed.

For the 2022 FTA Title VI Program Update Major Service Change is defined as any service change meeting at least one of the following criteria:

1. A revision to an existing transit route that increases or decreases the route miles and/or the revenue miles operated by 25% or more at one time or cumulatively in any period within 36 consecutive months since the last major service change;
2. A revision to an existing transit service that increases or decreases the scheduled trips operated by at least 25% at one time or cumulatively in any period within 36 consecutive months since the last major service change;

3. An increase or decrease to the span of service of a transit line of at least 25% at any one time or cumulatively in any period within 36 consecutive months since the last major service change;
4. The implementation of a new transit route that provides at least 50% of its route miles without duplicating other routes;
5. Six months prior to the opening of any new fixed guideway project (e.g. BRT line or rail line) regardless of whether or not the amount of service being changed meets the requirements in the subsections 1 – 5 above to be inclusive of any bus/rail interface changes.
 - a. Experimental, demonstration or emergency service changes may be instituted for one year or less without a Title VI Equity Analysis being completed and considered by the Board of Directors. If the service is required to be operated beyond one year the Title VI Equity Analysis must be completed and considered by the Board of Directors before the end of the one year experimental, demonstration or emergency.
 - b. A Title VI Equity Analysis shall not be required if a Metro transit service is replaced by a different route, mode, or operator providing a service with the same headways, fare, transfer options, span of service and stops.
