Overall Project Progress is 99.8% complete.

Average: 2.4 (as of April 2022)

Metro granted Walsh/Shea Corridor Constructors (WSCC) Partial Substantial Completion for Segments A & B on March 12, 2022. WSCC progress monitoring indicates Substantial Completion may be attained by May 2022.

Safety: Project Hours: 11,402,500 Recordable Injury Rate: 1.78 vs. The National

- Metro is concerned with the slow progress of completing systems integration testing and testing reports due to resource issues and discrepancies found during testing.
- DB contractors remaining work is primarily to complete System Integration Testing (SIT-1) of train control signal & grade crossing with trains-and emergency management panels to equipment and emergency scenarios in underground stations, and to complete test report submission/approval and punch-list and repair work including fire life safety items.
- Metro is performing System Integration (SIT-2) tests from Rail Operation Center.
- Metro continues to work with contractor to minimize delays and impacts to the project schedule; emphasizing safety and reliability in final acceptance of project elements, systems, and systems test reports.
- Additional funds are needed to cover higher than expected legal costs, higher than expected "Clean up" contract costs and the settlement of contract changes that were otherwise to be submitted to the evaluator.
- Equity 8 of 8 stations (100%) are within or adjacent to Equity Focus Communities.
