

Street Safety, Data Sharing and Collaboration Policy Attachment E

Appendix 3: Summary of Community and Partner Agency Engagement

Appendix C: Summary of Community and Partner Agency Engagement/Policy Development Activities

Objective

Engagement efforts launched in June 2021 and concluded in April 2022. The objective of engagement was to generate awareness of, and solicit input for, Metro's efforts to help create safer streets throughout Los Angeles County. These engagement steps sought input from Metro committees, public sector partners and the public.

Strategy

Outreach and engagement occurred in 3 phases. All presentations were conducted virtually via Lifesize and Zoom.

- > Phase 1: Engage Metro Committees
- > Phase 2: Engage the Public, Partner Agencies and External Community and Transportation Advocates
- > Phase 3: Report to Metro Board of Directors

If the policy is adopted, staff will create an engagement plan to seek additional input from the public, partner agencies and jurisdictions and community-based organizations and transportation-focused organizations to inform implementation of the policy.

Key Themes

Members of Metro committees and advisory bodies and participants in a public meeting shared various perspectives and advice on how Metro can help advance street safety. Some themes that Metro staff heard from more than one commentor and that resonated with the overall approach of the policy include:

- Connect to regional and city efforts
- Help improve safety data so that Metro and partners working towards safety can identify needs and track effectiveness of safety strategies
- Share best practices in complete street design with local jurisdictions
- "Put teeth" into funding so that Metro funded street projects are safe
- Talk to advocates working on traffic safety
- Pay attention to challenges faced by those with disabilities
- Explore how to advance vehicle safety improvements
