A. Procurement Background

This Board Action is to approve Contract Modification No. 8 to add new features and enhancements to the Mobile Phone Validator (MPV). In addition, the maintenance and support services for the application will be extended for two years, through November 29, 2021. Transit security has requested enhancements to accelerate fare validation and deduction of fares. Additional enhancements will include integration with the TAPforce database for ridership information and verification, the ability to read QR and Aztec codes, improved reliability, and expanded capability for use by Parking, Vanpool ride validation, special events and Micro Transit.

The MPV application was developed by Axiom xCell, Inc., in 2014 specifically for Metro and is installed on over 350 mobile phones which allows fare enforcement personnel to electronically query TAP cards to determine if riders are in compliance with Metro's fare policy. Therefore, Axiom xCell, Inc., is the only company that can modify the existing application to include these enhancements due to the sensitive encryption system and programming that is unique to TAP.

ATTACHMENT A

This Contract Modification will be processed in accordance with Metro’s Acquisition Policy and the contract type is a firm fixed price.

On February 2, 2014, Contract No. PS30203139 was awarded to Axiom xCell, Inc. to develop, test, and provide support for a software application for a handheld fare inspection device.
