## 4-Day Rail Count

SSLE launched its first 4-day rail count of persons experiencing homelessness on October $19^{\text {th }}-22^{\text {nd }}$

## Goals:

- Establish initial baseline numbers
- Starting point for identifying trends and hotspots
- Inform initial resource planning
- Identify lessons-learned to improve future counts
- Identify requirements for technologies that will help automate future counts and analysis

## Methodology:

- Law enforcement, Metro Transit Security, and contract security dispatched in 2-person teams across the rail system
- 2 counts per day (morning and evening)
- Used tally cards to count the number of persons experiencing homelessness on trains and in stations

## 4-Day Rail Count: Summary of Findings

| Findings | Metrics | Comments |
| :--- | :--- | :--- |
| Total Daily Average Homeless Population <br> (On-Train \& In-Station) | 1143 | Sum of the average AM \& PM counts for <br> both on-train and in-station |
| Daily On-Train Homeless Population | $711(62 \%)$ | Sum of the average AM \& PM counts (on- <br> train only) |
| Daily In-Station Homeless Population | $432(38 \%)$ | Sum of the average AM \& PM counts (in- <br> station only) |
| Average daily \# Homeless per Rail Line | 143 | 1143 average total homeless / 8 Rail Lines |
| Rail Line with the Largest Daily Homeless <br> Population | B (Red Line) - 436 total (189 <br> in-station, 247 on-train) | Significantly more homeless traffic on B <br> (Red) line than other lines. 35\% of on-train <br> traffic, 44\% of in-station traffic |
| Time of Day with Most Homeless On-Train | AM (404) | Suggests homeless begin daily migration in <br> the morning, primarily using Red, Expo, and |
| Blue lines |  |  |

## Homeless Outreach Services

- SSLE has received two shelter site proposals:
- Helping Hands Up proposes utilizing a vacant lot in South Los Angeles to construct temporary modular units.
- New Economics for Women (NEW) proposes providing 20 La Posada dedicated beds for single women and with one child under 10 years of age.
